Product Specification Sheet

Targus Slim Internet Media USB Keyboard
Part #: AKB04US

Product Description:

The Slim Internet Media USB Keyboard has all the functionality of a standard keyboard with the addition of built-in Internet and Multimedia hot keys. We have applied the latest keycap technology to reduce the key travel distance to less than 50% of the traditional keyboards. The slim keyboard is comfortable and reduces tension to the wrists and arms, as well as finger fatigue when compared to using a standard keyboard.

Product Features and Specifications:

- This is a Targus global product
- The slim profile reduces tension to the wrists and arms created by the height of traditional keyboards
- The low travel distance reduces finger fatigue compared to traditional travel distance keyboards
- Provides seamless desktop replacement for notebook PC users
- The slim keyboard takes up little space on the desktop and is aesthetically a better match to LCD monitors and notebook PCs
- Media hot keys*: Play/Pause, Previous Track, Next Track, Stop
- Mute key*
- Internet hot keys*: Backward, Forward, Stop, Refresh, Internet Browser, E-mail, Search, My Favorite, Media Player, Calculator, My Computer
- Volume dial**: Volume Up, Volume Down

*Works on XP without drivers, other operating systems may require drivers.
**Requires drivers
